POSITION:
Control Center Technician

NUMBER OF OPENINGS:
1

DEPARTMENT:
Control Center

SHIFT:
Full-time/Night

POSTING OPENS:
04/03/2026

POSTING CLOSES:

PURPOSE OF POSITION:

To provide efficient, courteous and reliable communication service to members for quality system operation; to coordinate communication with crews for status and assignment; to monitor status of electric systems.

MINIMUM JOB SPECIFICATIONS:

The following requirements are subject to possible modification to reasonably accommodate individuals with disabilities. Some requirements may exclude individuals who pose a direct threat or significant risk to the health and safety of themselves or other employees.

REQUIRES:

- Require High School Graduate/Equivalent. Prefer successful completion of two-year Electric Technical School.
- Required minimum 1-3 years experience in electric utility operations, control center operations, or a related field.
- Require demonstrable expertise of Carroll EMC's service territory, its boundaries, proficiency in electric distribution or transmission systems, operating SCADA systems, outage management systems, and two-way communication equipment.
- Require demonstrable expertise in interacting with the public and demonstrable knowledge of Carroll EMC policies and procedures, effectively communicating these to members.
- Require the ability to successfully pass Carroll EMC's employment entrance examination and drug screen.
- Require the ability to obtain and maintain ITS certification.
- Require interpersonal skills for interacting with the public; ability to accurately perform multiple duties.
- Prefer training in business related courses and previous experience in public interaction.
