PURPOSE OF POSITION:

Carroll EMC's work-study program offers career development opportunities through paid work experience and unpaid internships for select, high-potential high school and college students. This program complements the studies of students with an academic focus and career interests related to the electric utility industry and cooperative businesses.

This hands-on student position supports the maintenance and operation of Cooperative facilities and grounds, providing real-world experience in a practical, team-oriented environment. Students will develop valuable skills working with tools, equipment, and building systems while assisting with the day-to-day operational needs that keep facilities running smoothly. This role is ideal for individuals looking to build mechanical aptitude, gain exposure to maintenance and skilled trades, and learn by doing in a supportive setting.

MINIMUM JOB SPECIFICATIONS:

The following requirements are subject to possible modification to reasonably accommodate individuals with disabilities. Some requirements may exclude individuals who pose a direct threat or significant risk to the health and safety of themselves or other employees.

REQUIRES:

- Must be enrolled in a high school, college, technical college, or university.
- Require a valid Driver's License with a clean Motor Vehicle Record.
- Must pass pre-employment physical, criminal background check, and drug testing.
- Require the ability to work irregular hours during emergency situations.
- Ability to maintain accurate records.
- Excellent interpersonal skills for working with fellow employees.
- Excellent organizational and written communication skills.
- Basic computer skills.
